

Dra. Agnes Lanner

Orthodontist

Specialist in Orthodontics at the Javeriana University, Dr. Agnes Lanner has practiced a successful practice since 2000 handling orthodontic and maxillary orthopedic treatments from early ages in children to advanced ages in adults solving problems of both function and aesthetics.

He has also conducted training nationally and internationally in techniques such as Invisalign, lingual orthodontics, mini-implants such as orthodontic anchorage, in order to offer more and better alternatives to his patients.

Postgraduate professor of orthodontics at Javeriana University until 2008, active member of the Colombian Society of Orthodontics and member of the World Federation of Orthodontists.
